

SHEFFIELD HEALTHY HOLIDAYS 30 ACTIVE DAY CHALLENGE

Children and young people should be active for at least 60 minutes every day.

This 30 Active Day Challenge is designed so that families can **stay active** during the summer holiday period.

Keep yourself active for 30 days and record how you and your family are moving more or just tick off each day you have been active.

Each day there are suggested activities however you can think of your own ways of getting active at home or in your local area. Physical activity can help you feel happier, sleep better, and connect with people. **Give the 30 Active Day Challenge a try!**
