- Vapes can contain other harmful substances besides nicotine and often contain far more nicotine than cigarettes.
- Using nicotine in adolescence may also increase risk for future addiction to other drugs.

Searching

(Government guidance)

1. Searching can play a critical role in ensuring that schools are safe environments for all pupils and staff. It is a vital measure to safeguard and promote staff and pupil welfare, and to maintain high standards of behaviour through which pupils can learn and thrive.

2. Headteachers and staff they authorise have a statutory power to search a pupil or their possessions where they have reasonable grounds to suspect that the pupil may have a prohibited item listed in paragraph 3¹ or any other item that the school rules² identify as an item which may be searched for.
