Revision Materials:

Exercise books provide a useful source of revision as they are specific to the case studies you have studied. If you have work missing, you can catch up with the textbook (electronic copy on Kerboodle: students all have a login, they can speak to the class teacher if this is mislaid [Kerboodle - Sign In](#))

Other revision materials can also be found on Kerboodle

The department have also made our own revision guides for many of the topics provided close to assessment pieces; ask your class teacher if have mislaid your copy.

Glossaries: Where to find them:

Available on Kerboodle (students all have a login, they can speak to the class teacher if this is mislaid)

Glossaries are also in each topic book

Advice and Guidance for Revision

Testing yourself is the most effective form of revision including:

- Past exam questions (and mark these using the mark scheme)
- Create questions to quiz yourself with on the topic content (or asking someone else to use them to quiz you). This could be in the form of flash cards, with the question one side and the answer on the other – but remember to not spend longer making the flash cards than using them to revise.
- Cover up content you have looked at previously and write out everything you remember. Mark it to see how much you missed out.
