#### Advice and Guidance for Revision

Lesson booklets – You lesson booklets contain all key information you need to now as well as exam questions you can go use and improve when revising. Use lesson PowerPoints to support you in ensuring these are complete, materials can be found on G drive.

Flashcards – Flashcards are a great way to practice key terms. Write the key concept on one side and the definition on the other. You can use these with friends and family to test your knowledge.

Internet – YouTube is a great option for videos to support your learning. You may also find other useful resources online. Cat GPT is also a great way to test your knowledge and receive exam question feedback.

Mind maps / Spider diagrams – Creative forms of revision are encouraged. What works is personal to you, however mind maps and spider diagrams are good options to recap whole topics / content areas.
