## Purpose of the policy

This policy details how Notre Dame High School deals with an emergency evacuation of the exam room(s) by defining staff roles and responsibilities and confirming the emergency evacuation procedure.

## When is an emergency evacuation required?

An emergency evacuation is required where it is unsafe for candidates to remain in the exam room. This might include a fire in the exam room, the fire alarm sounding to warn of fire, bomb alert or other serious threat.

In exceptional situations, where candidates might be severely disadvantaged or distressed by remaining in the exam room, the emergency evacuation procedure may also need to be followed. This might include situations where there is severe disruption in the exam room, serious illness of a candidate or invigilator or similarly serious incidents.

As each incident may be different, advice will be sought from the relevant awarding body as soon as it is safe to do so. (ICE 25.6)

Where candidates are unable to return to the building to complete the examination, the relevant awarding body will be contacted immediately for advice.

## Emergency evacuation procedure

Invigilators are trained in this procedure and understand the actions they must take in the event of a fire alarm or a bomb alert or other emergency that leads to an evacuation of the exam room.

Emergency evacuation procedure
<b>Actions to be taken</b> (as detailed in current <a href="#">Instructions for conducting examinations</a> section 25, <b>Emergencies</b> )
Stop the candidates from writing
Collect the attendance register (in order to ensure all candidates are present)
Advise candidates to leave all question papers and scripts in the examination room Candidates must be advised to close their answer booklet
Evacuate the examination room immediately*
Ensure candidates leave the room in silence
Ensure the candidates are supervised as closely as possible while they are out of the examination room so that there is no discussion about the examination
Make a note of the time of the interruption and how long it lasted
Allow the candidates the remainder of the working time set for the examination once it resumes-make sure the displayed finish times are amended
If there are only a few candidates, consider the possibility of taking the candidates (with question papers and scripts) to another place to finish the examination
Make a full report of the incident and of the action taken (to be retained on file if required by an awarding body)
<p><b>For on-screen assessments:</b></p> <ul style="list-style-type: none"> <li>• candidates must be closely supervised if an emergency evacuation of the assessment room occurs</li> <li>• invigilators should refer to any software specific instructions to safeguard the security of the assessment content and candidates' responses (For example, pausing the assessment for all candidates and locking the evacuated assessment room without closing down the software)</li> </ul> <p>invigilators should understand the procedures for re-starting an on-screen assessment after an emergency evacuation of the assessment room, controlling the re-starting of the assessment, re-setting the timing and ensuring, where appropriate, candidates can access their previous responses</p>
*Evacuate the examination room in line with the school FIRE PROCEDURE which includes leaving by the nearest accessible route, ignoring the one-way system, and mustering in the appropriate location on the top/bottom yard for roll call whilst remaining silent and avoiding communication of any description throughout
